

CONNECTING WITH DIVERSE COMMUNITIES

Our Commitment to Diversity, Equity, Inclusion, & Justice

FROM OUR FOUNDING

For two decades, EcoLogix has been connecting Black, Indigenous, & People of Color (BIPOC) communities with decision-makers and others to ensure that their voices are heard while advancing equity and social justice. This is an essential component of our business model, and it is a matter of our core personal convictions.

RELATIONSHIPS

Building relationships with communities for us means everything from listening, information sharing, transparency, to full engagement. When there's a call for volunteers for community events, you'll often find us there, because we are partners who value these friendships.
